

DOUBLETAPP.

ABOUT THE COMPANY

(as of March 2023)

OUR SERVICES

MOBILE

We create native and cross-platform applications for iOS and Android, from concept development to successful product implementation.

WEB

We create beautiful landing pages and high-load services using React, Python, and Go.

PROJECT MANAGEMENT

We streamline business processes, project communication, monitor deadlines and accuracy of tasks, and ensure project budget efficiency.

MACHINE LEARNING

We create products based on artificial intelligence and optimize your business by identifying dependencies in data.

DESIGN

We create thoughtful and aesthetic designs that help companies solve business problems.

AUDIT

We will audit the code of your IT products and give advice on how to proceed.

QA

We ensure quality at every stage of product creation. We manually check, write automated tests, conduct load testing, and find vulnerabilities.

OUR GEOGRAPHY

We work with clients from
different parts of the world.

OUR CLIENTS

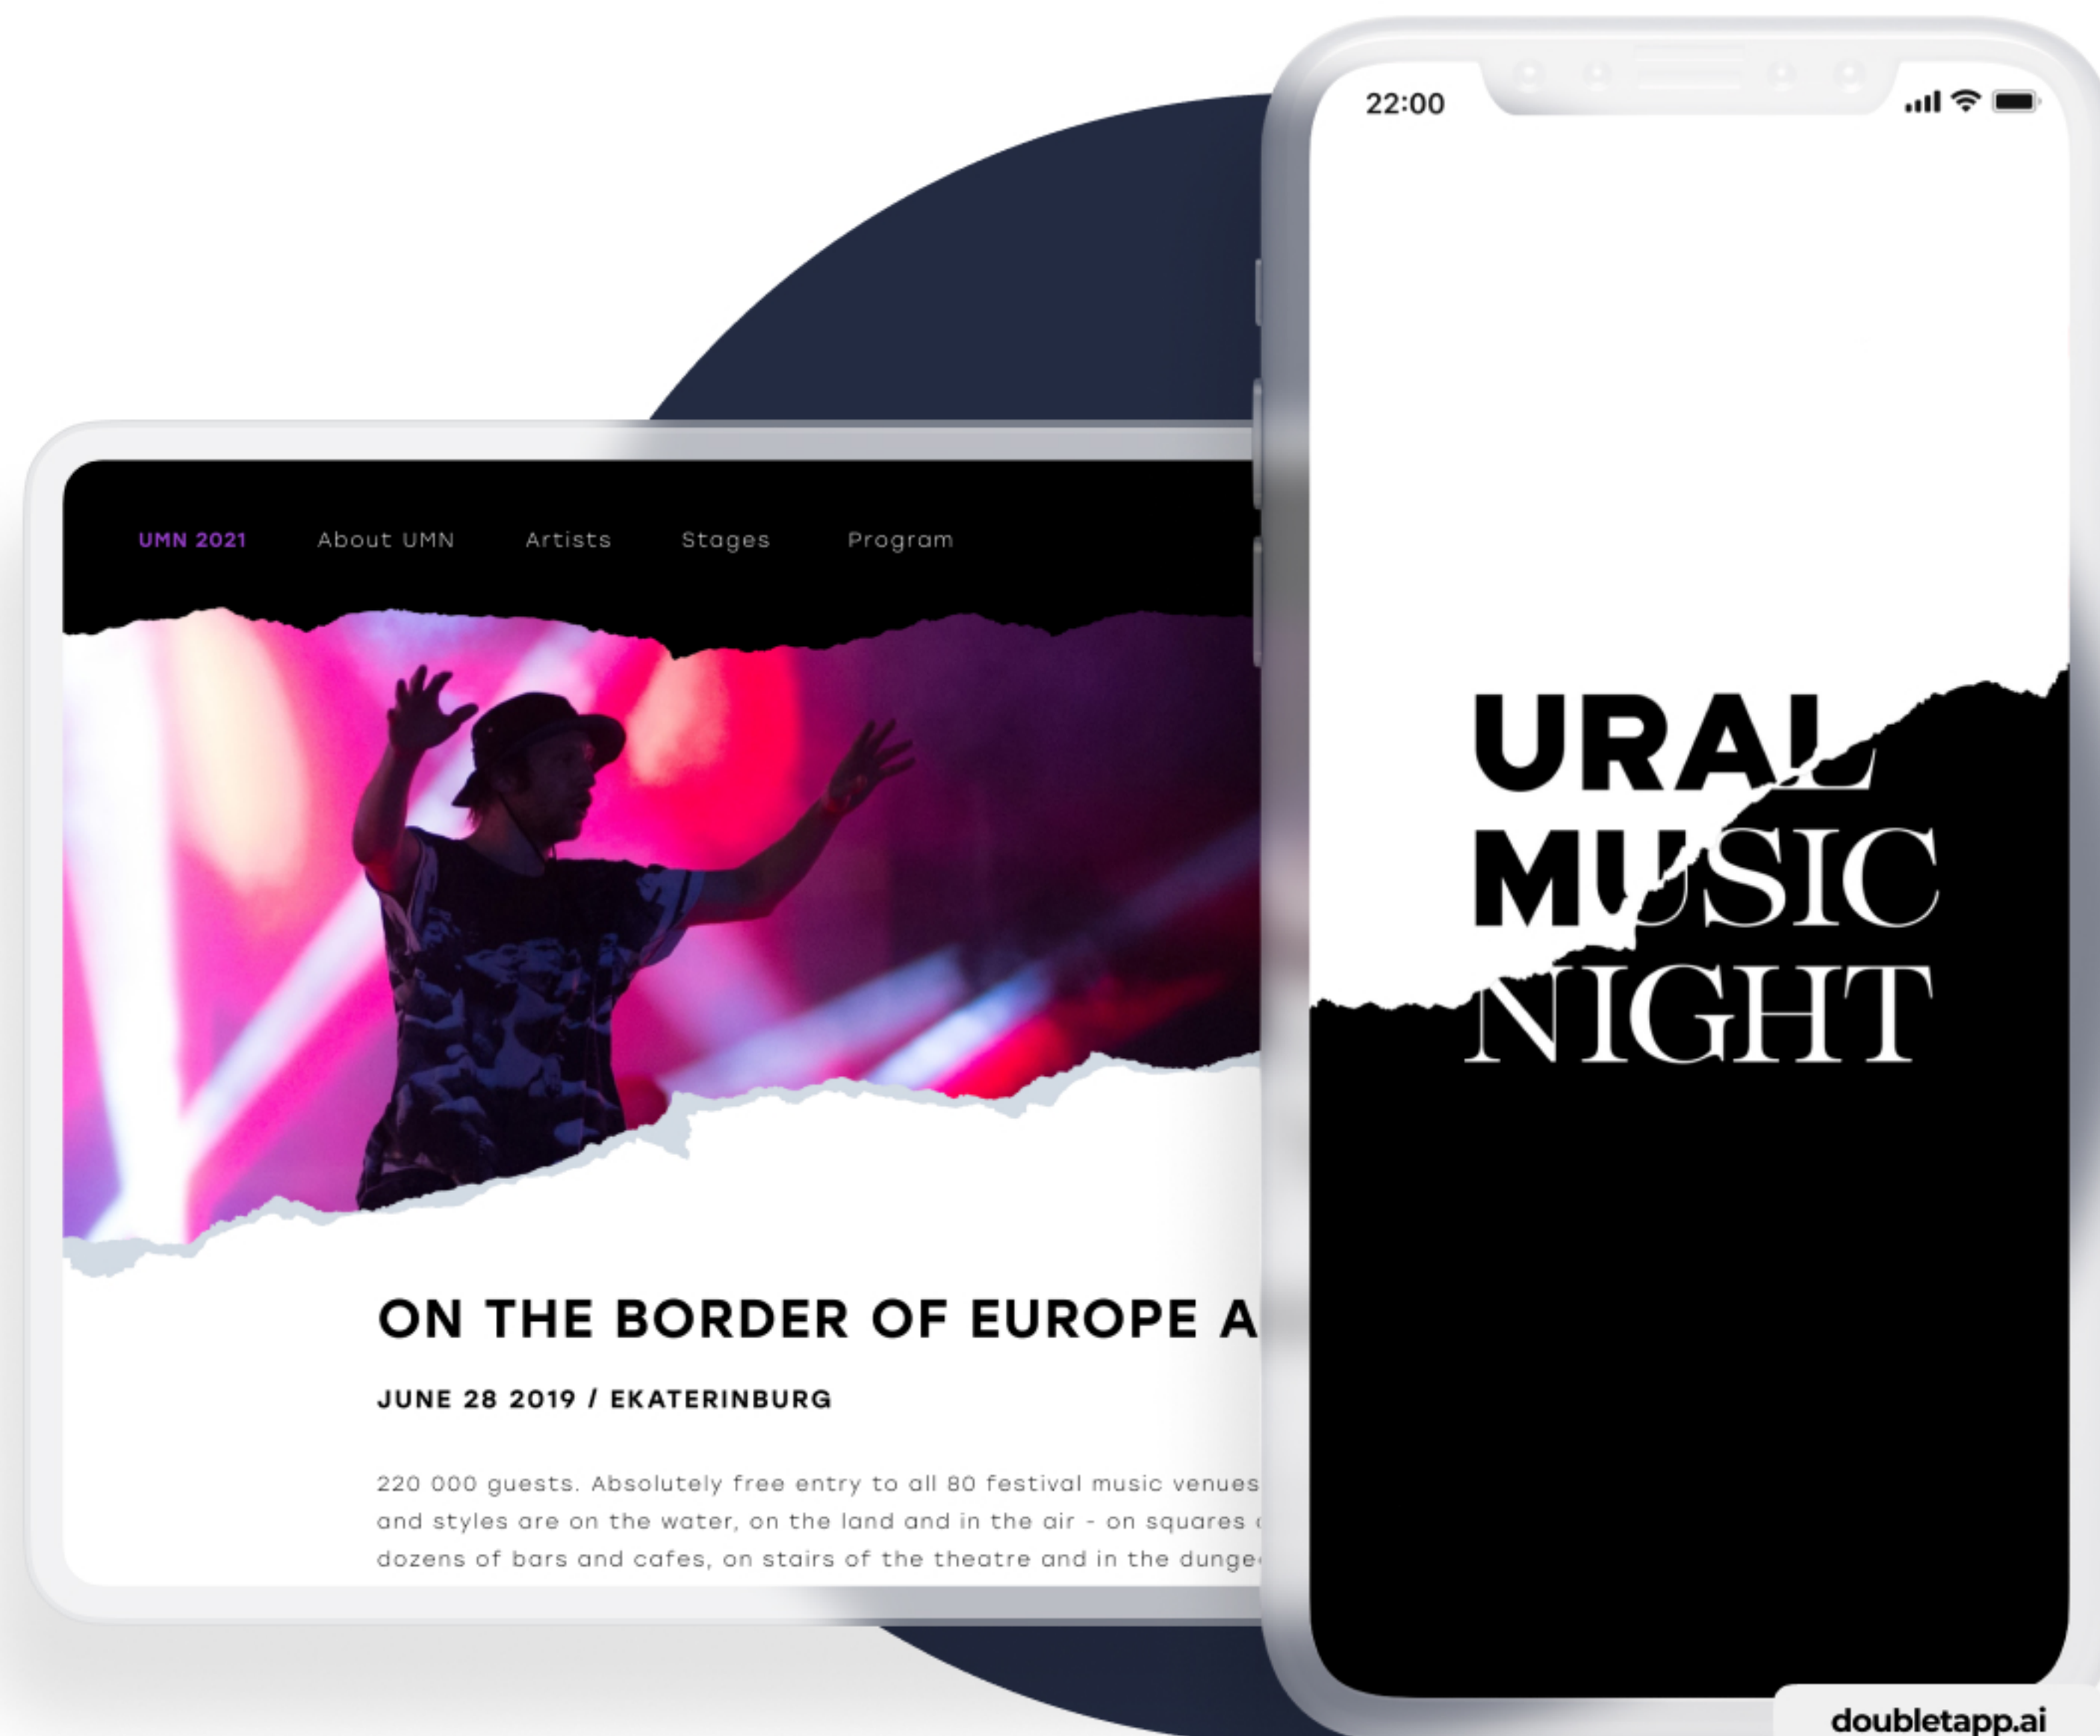

OUR ADVANTAGES

- 7 years of experience in product development of mobile applications for Russian and foreign companies
- Full-cycle development: from writing a technical task to release in production
- A thoughtful approach to the client's tasks
- Analysis of similar products on the market
- Winners and prize-winners of the Tagline Awards 2019-2021 in 22 nominations
- Three-time winners of VK Hackathon in FinTech, Education, and Sports cases in 2018 and 2019
- Teaching backend and mobile development at the Ural Federal University. We annually graduate from 40 to 60 specialists in these areas.

OUR PORTFOLIO

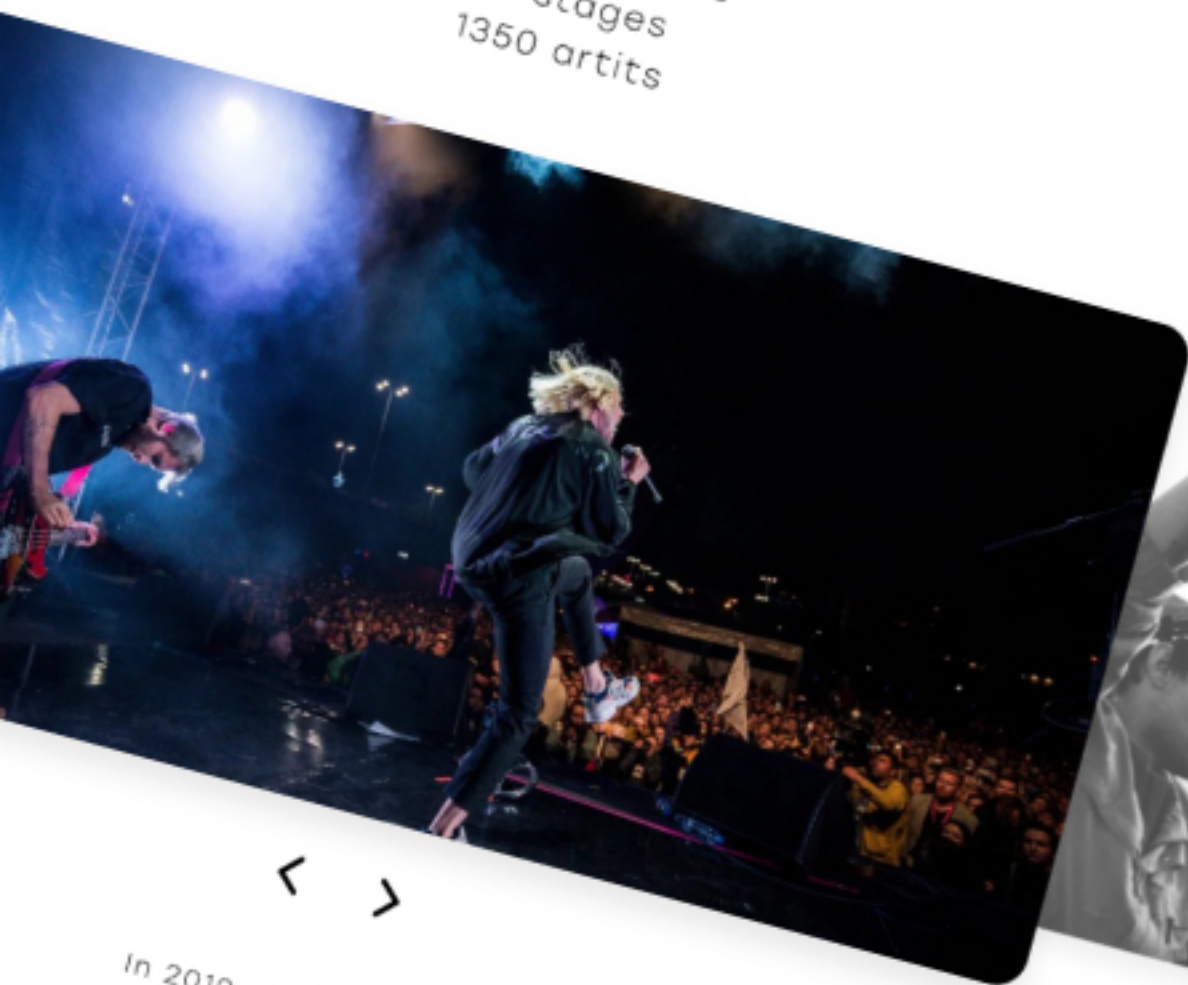

URAL MUSIC NIGHT

UMN is a unified ecosystem that consists of a mobile app and a website that allows visitors to navigate through the largest annual music festival in Russia. It provides information on the list of stages and artists, performance schedule, map navigation, and more.

2017

150 000 guests
98 stages
1350 artists

2019

300 000 guests
100 stages
1500 artists

In 2019, Ural Music Night was located at 80 venues and became more concentrated. There are more open areas in the fresh air. The festival was

DT.IS

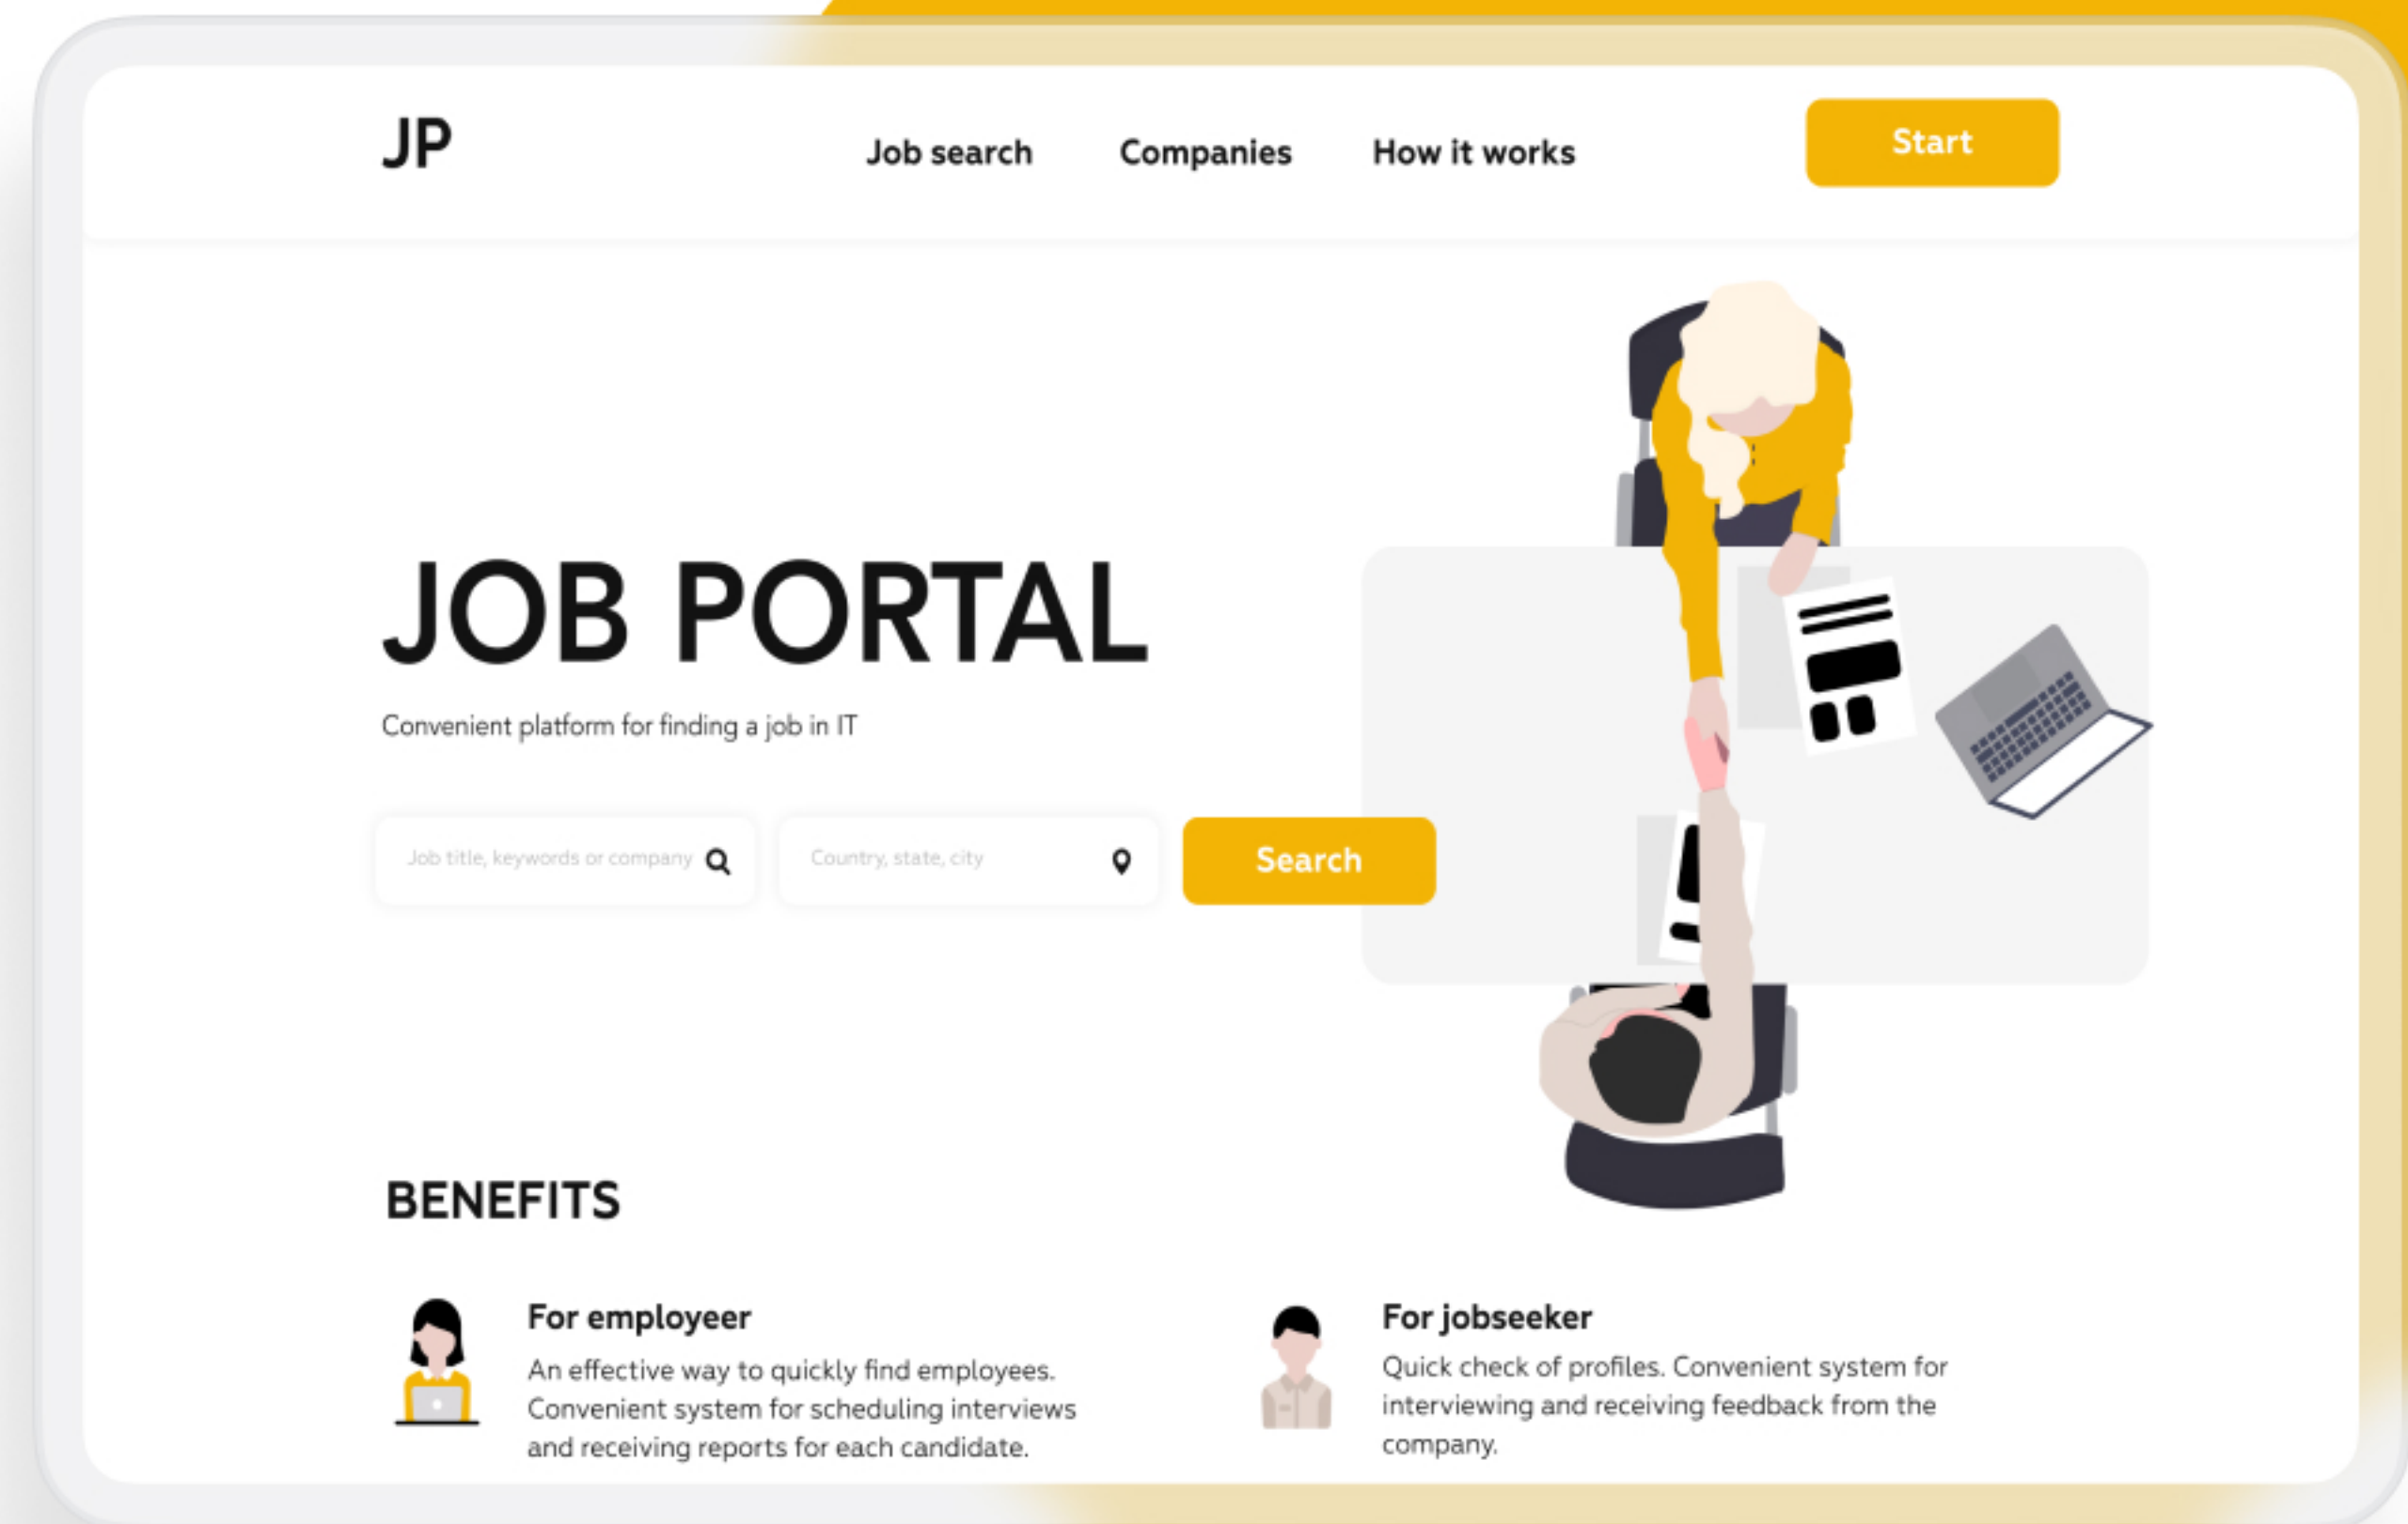

DT IS is a studio management system for Doubletapp. It is a modular solution, and each module can be applied to any other company. The platform allows quick hiring, submitting requests for salary, vacation, sick leave, compensation, and viewing reports with the time spent on projects.

JOB PORTAL

Job Portal is a job search service that provides a complete hiring cycle, from finding a job vacancy to interviews and receiving job offers. The interface is designed for five different roles: employer, applicant, recruiter, administrator, and moderator. The service combines all stages of job search and facilitates interaction between all parties involved.

Resume.pdf

ULLR

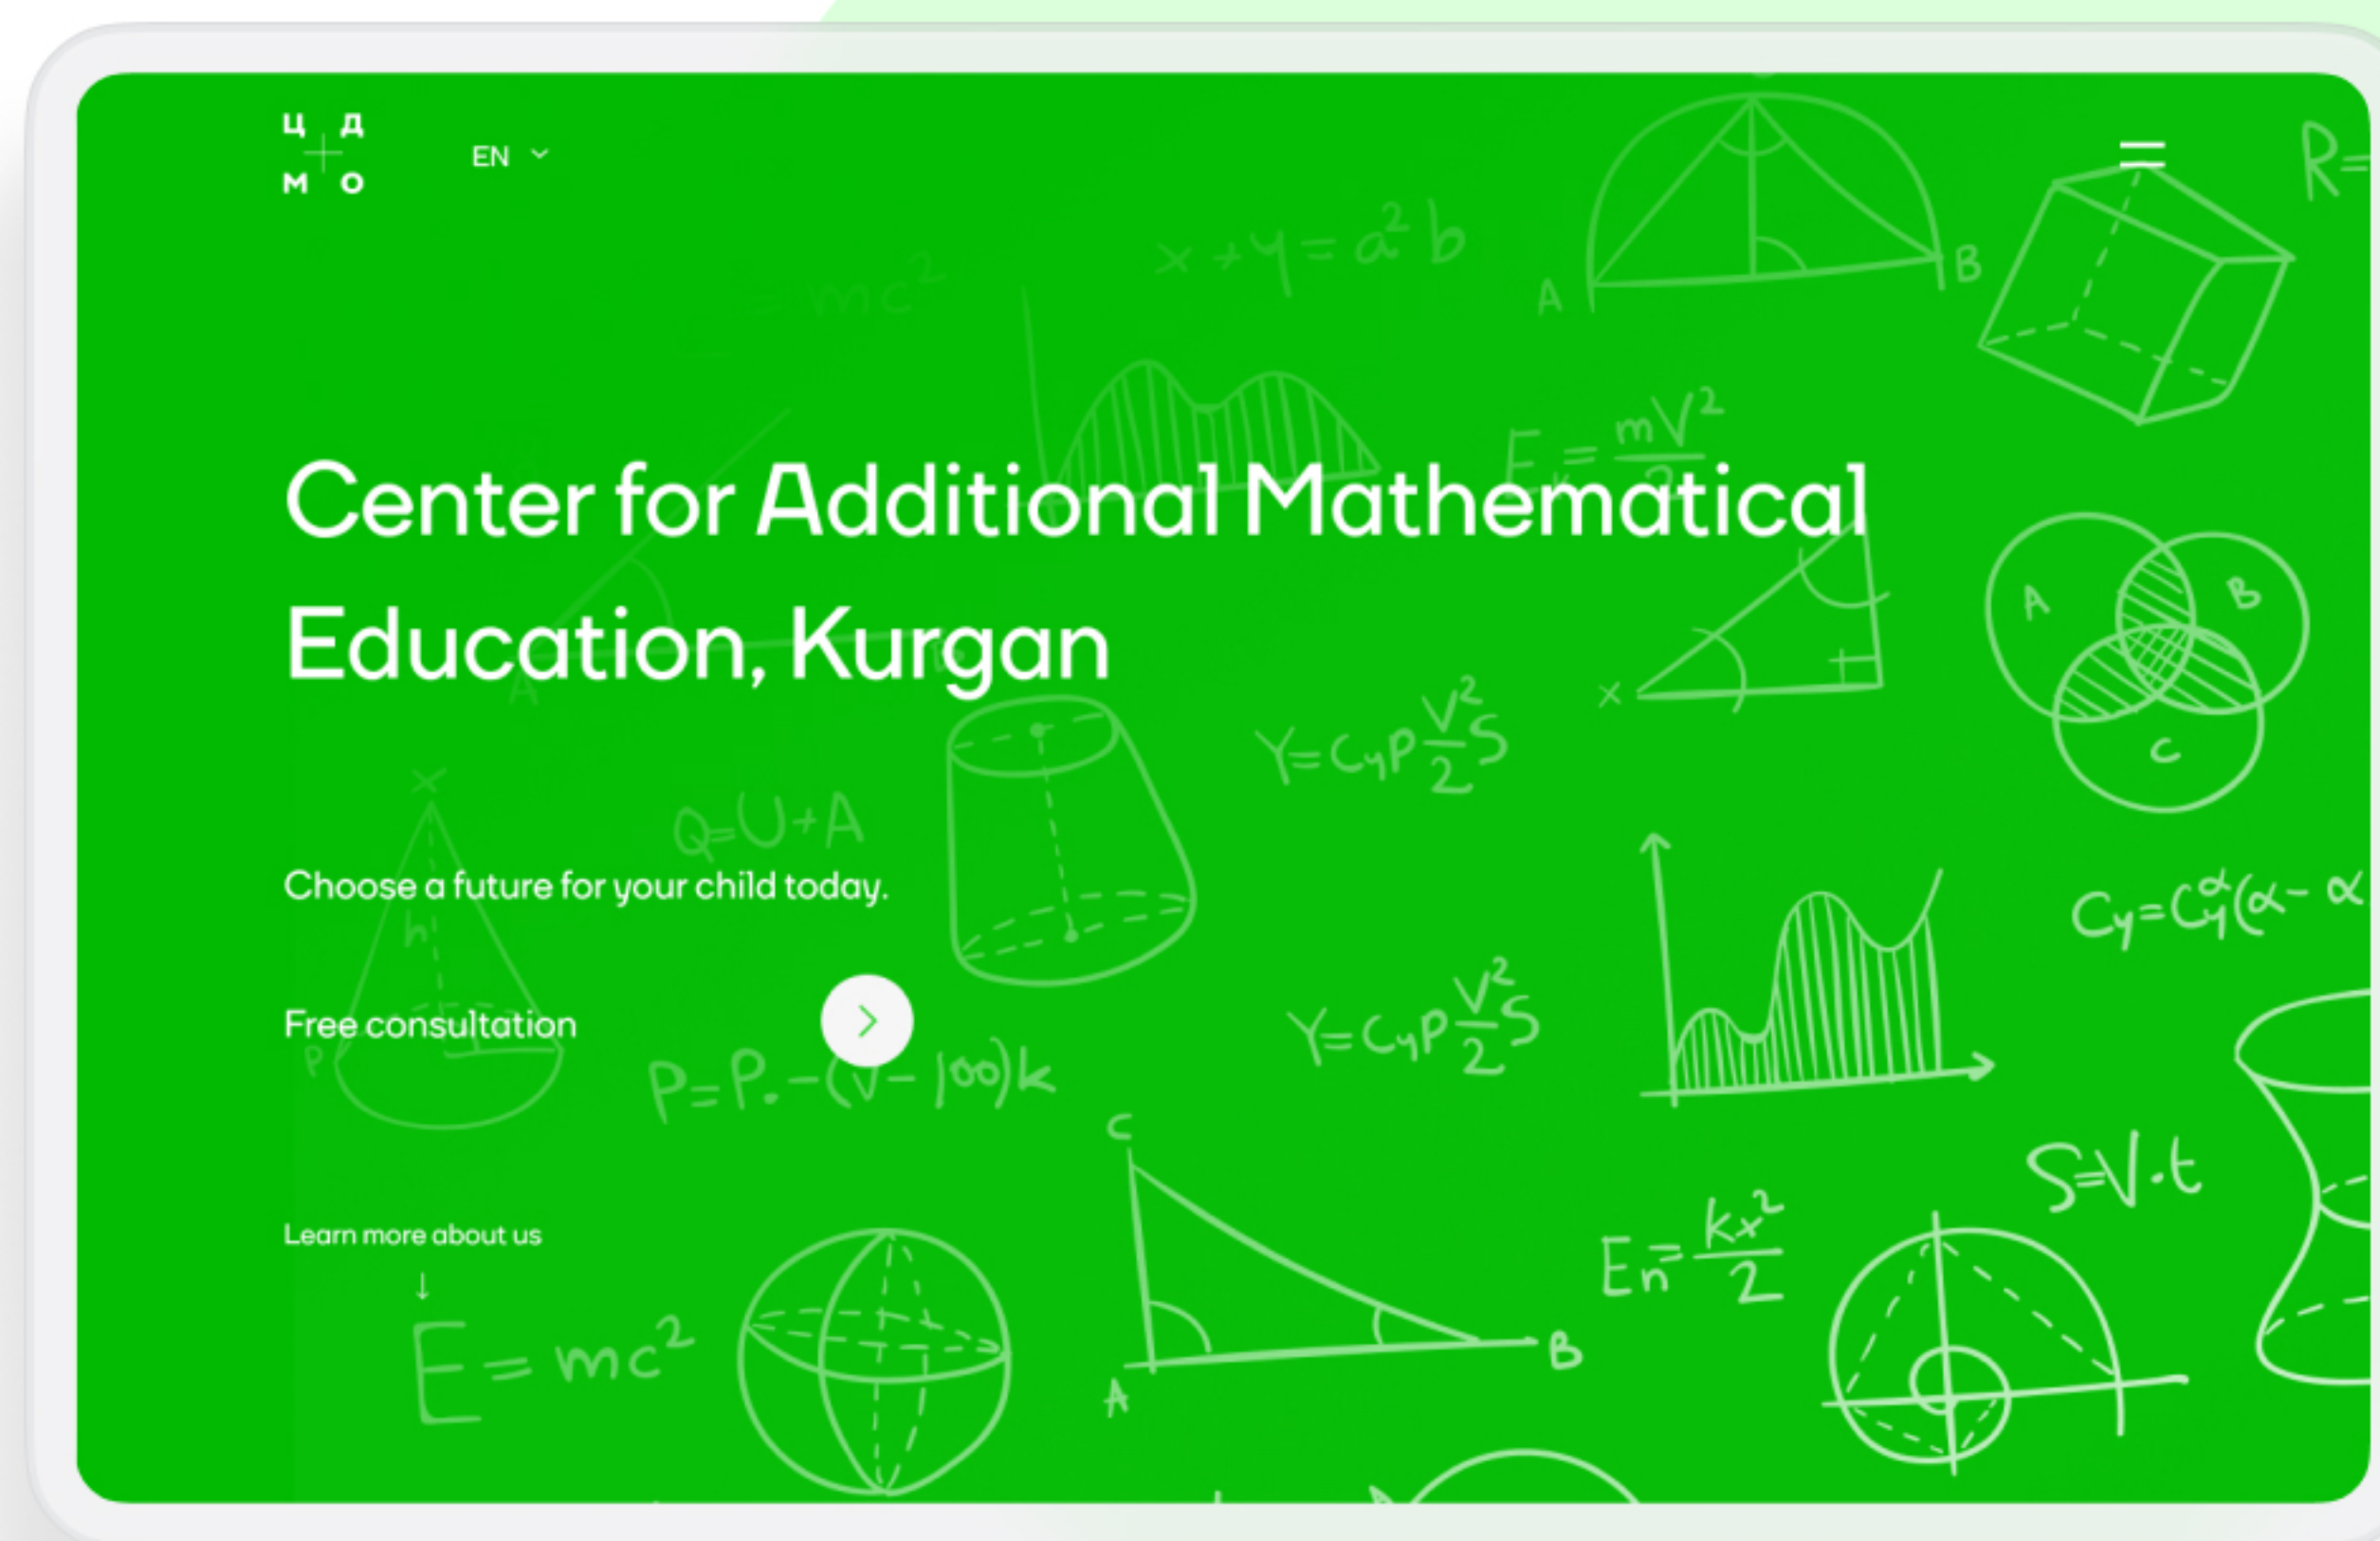

ULLR is a banking app and card for gamers. The team implemented a complex system of integration with games, marketing platforms, and banking integrator. The uniqueness of this product lies in the cashback system. Unique quests are created inside the app or partner games, for which additional bonuses are awarded. On top of that, the app has all the functions of a standard banking app.

ЦДМО (CAME)

The Center for Additional Mathematical Education is one of the strongest mathematical schools in Russia. Our team developed a modern brand, identity, and website that provides all the necessary information about the school's work, schedule, and additional educational events.

VOZZ

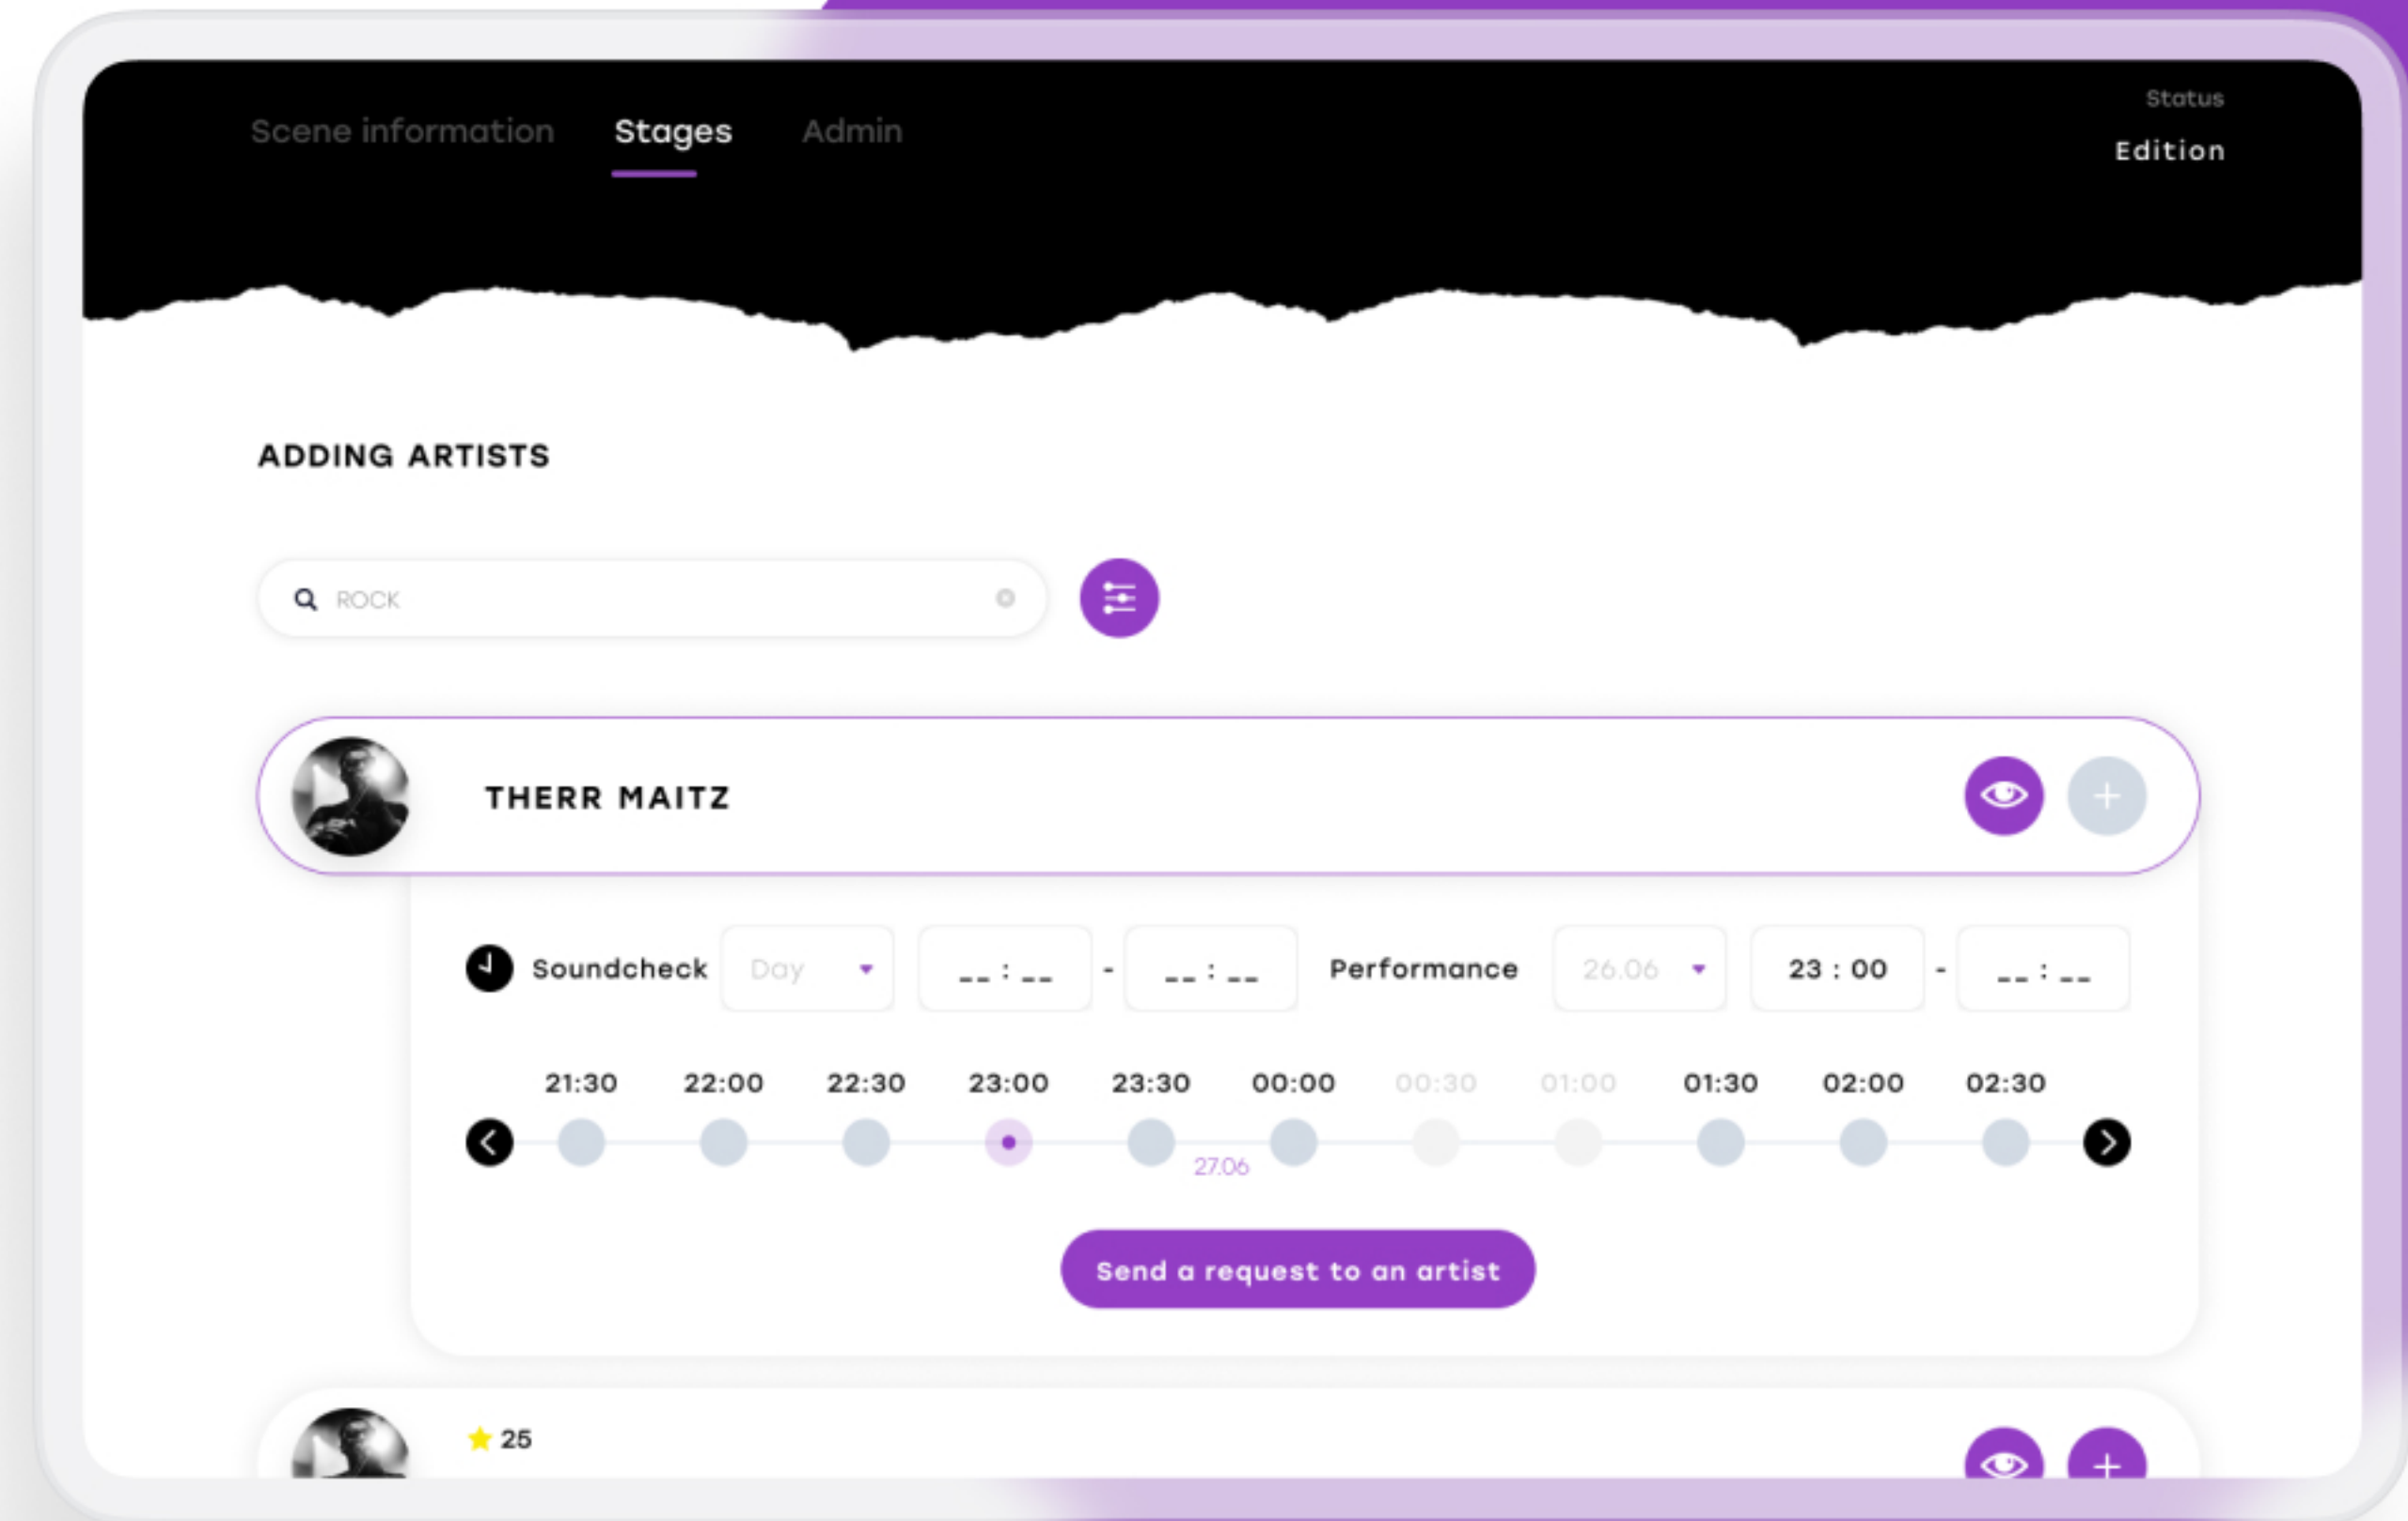

VOZZ is a social network for graduates and students of British business schools. The key feature of the service is a closed networking platform. For VOZZ, we developed the brand, identity, website, and mobile app.

URAL MUSIC NIGHT CRM

This is a CRM system for managing the music festival. The CRM simplifies and automates working with artist applications to perform at the festival and stages where they perform. We integrated all the processes that were carried out through email, phone, messengers, and Google Docs into a single system.

Hello, John

NEW OPEN

New Open is a music competition. For them, we developed a website and CRM system for organizing and moderating the event. With the CRM system, artists submit applications to participate in the competition, and event organizers select and evaluate participant profiles. All information is automatically synchronized with the website.

APPLICATION FOR PARTICIPATION IN THE COMPETITION

Only correctly and fully completed questionnaires pass the primary selection and go to the stage of coordination with the organizers of the festival! Carefully fill in all the fields and get a chance to become a member of the New Open Festival. Until all required fields are filled in, the application cannot be sent for moderation.
